PEOPLE WHO WERE THERE SAID:

100% learned something new.

64% planned to change an aspect of their practice, research or work based on knowledge gained.

89% thought the presentation was relevant and useful.

#McCainatCAMH

OBJECTIVE

To describe the value and use of Implementation Science in the context of the implementation of integrated youth services in Ontario, especially Youth Wellness Hubs Ontario.

“Sustainable change requires effective and meaningful buy-in, community ownership and capacity building. For practices to be truly sustainable, they have to be completely integrated into the community.” - Dr. Alexia Jaouich

Dr. Alexia Jaouich and Gloria Chaim

KEY MESSAGES

For effective implementation of new services, programs and system change, consider the importance of:

- Implementing models that are responsive to youth and family needs.
- Using Implementation Science in a flexible and integrated way.
- Active engagement and leadership of community stakeholders including youth, family and service providers.
